## Hard Skill

---

- Web Developer
- HTML & CSS Bootcamp
- Python

## Soft Skill

---

- Observation
- Decision making
- Communication
- Multi-tasking

## About Me

---

As a Networking Specialist, my role is essential in ensuring the seamless connectivity and robust network infrastructure required for various projects. My work involves creating and deploying network solutions that support the organization's communication and data exchange needs. This includes planning network layouts, selecting appropriate hardware and software, and ensuring scalable and efficient network performance.
